" my child is sick and needs a new host.. "  
you will have to become the queen bee and bear the  
sick from our world"

ANTON ECKHART

Possibly having to deal with the fungal as well, the mycotic, the rhizomatic yes possibly. In Ancient Greece, there was a secret initiation ritual, a series of rituals actually, known as the Eleusinian Mysteries. These rites were practiced in secret for over two millennia, so we're talking about a major part of ancient life over an unfathomably long period of time. And even though these rituals were going for basically the entirety of ancient Greek civilization, we know very little about them, because to discuss or write about the mysteries was punishable by death. What we do know is that the rites revolved around the story of the goddess Demeter, and her daughter Persephone. Demeter, you probably know, was the goddess of the harvest, and her daughter Persephone, who was a sort of embodiment of the spring, was savagely abducted by Hades, the God of the Underworld. The mysteries were an immersive reenactment of the abduction, the descent into the

*As Anton began to dive deeper, he also started to investigate this purgatory space that was metastasising with the fungus. He realized that the fungus was feeding out of our past, the trail we had left behind. It was feeding on the neglected decay of architecture, on the souls that were still trapped in the matrix of things.*

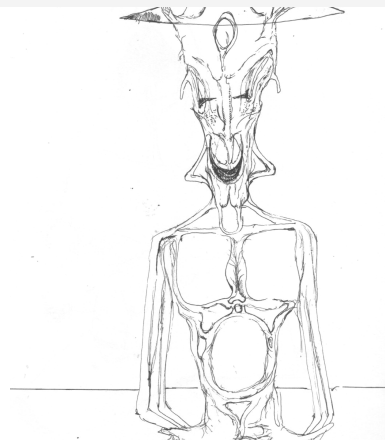

INTERVIEWER  
Can you show it to me?

GIRL SHPONGLER  
Yeah. This is it. Just a patch. So, um, you know, you just, you take it over back and, um, it's really thin. So you wanna be really gentle with it. The guys, sometimes the guys wouldn't try this. That's just really special guys. You know, sometimes they, they want to do something more like intense where they, you know, they're like inhaling putting needles. I like that too. But this one you just could have just,

INTERVIEWER

You said a gremlin started coming through the hive. Um, a full fantasy gremlin.

TREY

We had found this like old dog crate and we stuffed him in there after he bit like three or four people, man, fucking evil, evil motherfucker. Oh, claw and shit, fucking man. We tried a chain first time around, but he fucking, I don't know. He had a huge head. We figured it's tiny little neck. We could put a chain around there. We fucking choked him out. He fucking scratched it off. Or somehow was able to pull a shit nod away. And what, when we looked over, he was gone and then we were all kind of like, what the fuck? Where the fuck did he go? And like next thing I know he was in our stash. Motherfucker was in the fucking stash. I think it was more like a cross between human troll and some kind of animal

INTERVIEWER

Like a gremlin?
